## MAN FAILS TO GAIN FREEDOM

### Starts Habeas Corpus Action After Arrest As Suspect in Auto Theft

### PETITION IS DISMISSED

### Filing of Warrant Removes Cause for Action, Not Guilty Plea Entered

L E McVaney 46 held in city prison since Monday night lost a legal skirmish for freedom today when habeas corpus proceedings he started in common pleas court were dismissed with the filing of a charge of automobile theft against him.

McVaney through his attorneys the law firm of Carhart Warner & Carhart filed the habeas corpus proceeding late yesterday afternoon. It was charged in the petition that McVaney had been held without an affidavit filed against him and without a warrant for his arrest and that authorities refused either to file a charge or fix bond for him.

Common Pleas Judge Hector S Young conducted a hearing on the habeas corpus petition at 10 a m.

**Auto Theft Charge**

In the meantime a charge of stealing an automobile from the E C Dorse & Co of Urbana last Friday was filed against McVaney in municipal court.

McVaney pleaded not guilty when arraigned before Municipal Judge William P Martin early this afternoon. His preliminary hearing was set for Monday at 9 a m. At the request of Prosecuting Attorney Paul D Michel and Police Prosecutor Z P Davis for a high bond Judge Martin fixed McVaney's bond at $5000.

This however did not end the legal maneuver. McVaney's attorneys immediately after the municipal court arraignment went back to common pleas court contending McVaney was before the common pleas court on the habeas corpus petition and that it was improper to arraign him in municipal court until Judge Young gave his decision. They also charged that the bond of $5000 was unreason[illegible] in view of the fact the automobile McVaney is charged with stealing is valued only at $300.

Judge Young heard the arguments and those of Prosecutor Michel and Davis and then dismissed the habeas corpus action asserting that the conditions McVaney sought to correct had been eliminated by the filing of a charge against him. He also [illegible]

## Man, 75, Fights Off Robber He Had Befriended

### Charles Freeman Saves Money in Struggle With Youthful Assailant

A 75 year old Marion county man fought it out with a young would be robber who attempted to take his pocketbook last night and succeeded in saving the purse.

He is Charles Freeman former blacksmith who lives two miles south of Marion on the Prospect pike.

The would be robber described to Sheriff Fred F Miller as being between 21 and 25 years of age made the assault after Mr Freeman had befriended him.

**Asked for Auto Jack**

Mr Freeman told Sheriff Miller and Deputy Gene Geissler that the young man came to his house about 10 30 o'clock last night asking for an automobile jack to use in repair of his truck nearby. Given the jack he left but returned a short time later to ask for a tire pump.

Mr Freeman said he went to a shed back of the house to get a pump and the young man followed him. He said the young man suddenly leaped on his back as he

## SOAK RICH TAX TO BE PARTED FROM NUISANCE

### Roosevelt Tells Congress He Doesn't Expect Share Wealth Law by Saturday

### HOUSE WANTS NEW BILL

### Tells Senate Committee Ready To Start Action on Legislation

By The Associated Press
WASHINGTON June 26—President Roosevelt said today he wants the new wealth tax program enacted this session but not necessarily as a part of the emergency nuisance tax bill due to pass by Saturday.

Even as he spoke at a press conference house ways and means committee Democrats served notice on senate leaders that they intended to insist upon originating a new tax bill to carry out the President's program for a wider distribution of wealth.

**Adopt Resolution**

They did that through a resolution adopted at a secret meeting authorizing Chairman Doughton to advise Chairman Harrison of the senate finance committee that the ways and means committee was ready to start action on a new bill.

Meanwhile the tax program encountered [illegible] in the senate which caused Democratic leaders to concede there was little hope of getting it enacted by Saturday night.

A session of the senate finance committee to act on some of the levies was called off because treasury and legislative drafting experts had not completed work on the tentative rate schedules.

Mr Roosevelt expressed some surprise at suggestions that the new levies on high incomes and inheritances be rushed through by Saturday night. He said he had never considered that speedy a program.

**Refers to Meeting**

Mr Roosevelt said that at the meeting Monday night with congressional leaders on the new tax legislation no one suggested there that the bill be passed by Saturday night.

He said that for himself he had not suggested it and had said nothing more than was in his special message to congress that did not specify when he wanted action.

Sen Robinson the Democratic leader upon leaving the White House meeting proposed that the new legislation be added to the nuisance tax bill which must go through congress by Saturday night to maintain the existing emergency levies.

**Approves Separate Action**

Reminded that the emergency nuisance taxes expire on Saturday night unless the pending bill is enacted the President definitely intimated that he would approve procedure for separate action on the wealth tax program. This would permit immediate action on the nuisance levies.

Discussing his recommendation for a new tax system to apply to the wealthy Mr Roosevelt said its primary purpose was two fold—to obtain revenue and to provide a better social order.

The President emphasized that he was recommending principles to congress and that actual framing of schedules was up to congress alone.

The house ways and means Democrats also again resisted the idea of approving a new resolution for a 30 to 90-day extension of existing nuisance taxes so as to give the senate time to add the new Roosevelt taxes onto the nuisance

## INJURY DOESN'T STOP SOFTBALL PLAYER

Harry Winters of 1204 East Center street former Harding High school athlete discovered yesterday that he had suffered a fractured collar bone in a softball game Monday night at Garfield park.

Winters who graduated from Harding High school this spring fell on his left shoulder while running bases in the Forest Lawn Oakland game. He is a member of the Forest Lawn team. He slipped on the grass and fell turning a complete somersault. He continued to play the game without knowledge of his injury.

Winters was a member of the Harding High school football and basket ball teams.

## HARLEM'S MAKING MERRY OVER JOE LOUIS VICTORY

### Dance Halls and Dining Spots Scenes of Celebrations Lasting Until After Dawn.

By The Associated Press
NEW YORK, June 26—Harlem, crooning hallelujahs for Joe Louis, at dawn today was a happy picnic ground of fried chicken and two-bit gin.

Louis' victory over Primo Carnera started a celebration that danced past sun-up under the watchful eyes of a blue coated policeman at every corner of Lenox avenue.

"They sho goin' to town, all right," Newt said as he greeted Harlemites and Louis' Detroit friends at his breakfast dance emporium—one of many such places.

The Detroit friends flaunted resplendent gold badges [illegible] attached to wide blue ribbons bearing the legend "Joe Louis Boosters Club of Detroit."

The Negro maids, chauffeurs, laundresses chorus girls, bellhops and other inhabitants of the 125th street neighborhood must have felt confident from the start of the fight at Yankee stadium.

Jack Johnson was there, dazzling in his chocolate hued sport jacket and wide brimmed Panama hat. He was greeted with a clack-clack of palms that sounded like the rhythmic staccato of bones at a Saturday night social.

## WEATHER TABLE REVEALS SEASON'S BACKWARDNESS

### Clouds and Rain Chase Away Dry Hot Weather of Last Few Years, Giving Real Summer Slow Start

The [illegible] weather [illegible] during the [illegible] spring and early summer [illegible] during the last several years is getting away to [illegible] slow start [illegible] year temperature records from the official weather reports of [illegible] H Raffensperger weather observer here reveal. Likewise [illegible] show the [illegible] amount of rainfall last month and during the first [illegible] days of this month as compared with the meager average in May and June of 1933 and 1934.

The 4.18 inches of rainfall last month and the 2.81 inches thus far this month is hailed by farmers as [illegible] a boon to what promises to be the best crop season in years. [illegible] elsewhere in today's edition [illegible]

[illegible] reveals a [illegible] rainfall [illegible] last and in May and June of 1934. The table is [illegible] with [illegible] backward season [illegible] in May [illegible] in today's [illegible]

It will be noted that the average temperature [illegible] degrees above zero [illegible] while the average [illegible] degrees above [illegible] June of 1934 [illegible] degrees different. The average temperature [illegible] was [illegible] degrees above [illegible] and in the same month in 19[illegible] it was 71.5 degrees above.

The average temperature in May of this year dropped to 56.4 degrees above zero as compared with an average of 63.3 degrees above in May of 1934, 63.3 in May of 1933 and [illegible] in the same month of [illegible].

Rainfall thus far this month totals 2.81 inches as compared with .13 inches for the entire month of June last year. In June 1933 there was no rainfall [illegible] the same month of 1932 1.54 inches was measured.

Rainfall last month totaled 4.18 inches. In May last year there was no rainfall and in May of 1933 only .07 of an inch. There were 2.12 inches in May of 1932.

The total number of rainy days is compiled from the table on the days when more than [illegible] of rain fell. Days when less than [illegible] fell are not registered in the recapitulation figures [illegible] the chart as rainy days.

It is interesting to note that Mr Raffensperger's table reveals every day of this month as [illegible] and that there were only five clear days last month. There were six clear days in June of last year, [illegible] clear days in June of 1933 and nine in the same month of 1932. In May last year there were 16 clear days in May of 1933 [illegible] clear days and in May of 1932 there were 12 days recorded as clear.

## POLICE ARREST SUSPECT HERE

### Texas Man Turned Over to Logan Co After Gas Station Robbery

### ANOTHER EVADES CAPTURE

### Pair Slug Bellefontaine Attendant and Escape in Stolen Car

Marion police last night arrested a Dallas Tex man alleged to have participated in a gasoline service station holdup in Bellefontaine O late yesterday after stealing an automobile at Celina O.

The man is Austin Johnson alias Fred Hall 21 who gave his address as Dallas Tex. He was arrested by Night Police Capt Ora DeWees and Patrolman Osmun as he approached the stolen car police had located and had been watching 45 minutes. A suspected companion of Johnson's escaped capture.

Johnson was turned over to Sheriff Charles Bewley of Logan county this morning after the service station attendant Kenneth Stubbs identified him as the man who struck him over the head with a wrench during the holdup police said.

**Radio Gives Tip**

Police here received a radio message that two men held up the Ohio Oil Co station at Hayes and Sandusky streets in Bellefontaine at 7 45 p m and made their escape in an automobile found to have been stolen from Celina. Police located the automobile about 8 30 o'clock last night parked on West Center street near Linden street. DeWees and Osmun said they waited near the car until Johnson approached it at 9 [illegible]. He gave the name of Fred Hall but DeWees in his report said papers on his person bore the name of Austin Johnson.

A man answering the description of Johnson's companion was believed to have been seen on West Center street near Orchard street but made his escape. He is described as 28 years old five feet nine inches in height weighing 150 pounds and being neatly dressed wearing a brown suit and no hat.

**Identified by Victim**

Kenneth Stubbs who was questioned by the Logan county sheriff here this morning said two men in the 1932 Ford coupe bearing Ohio license 12 WT drove into the service station at 7 45 p m yesterday and ordered 11 gallons of gasoline and a quart of oil. After the attendant had filled the tank the men asked for a receipt and as he was bending over the desk in the station one of the men whom he identified as Johnson struck him over the head with a wrench knocking him down. They then [illegible] Stubbs and a newsboy who was in the station in the wash room and made their escape after looting the cash register of $35.

Johnson when he was arrested, had $17.83 in money on him. Acting Police Capt. Fred Norton said. All night patrolmen and State Highway Patrolman J M Kratzer joined in the hunt for the other suspect.

## DAY CITES $20,000 TREASURY SHORTAGE

### Amount Missing in Accounts of Bond Clerk Recently Indicted in Embezzling

By The Associated Press
COLUMBUS O June 26—State Treasurer Harry S Day said today that auditors had discovered a shortage of some $20,000 in the accounts of W Merle Cortner formerly of Springfield a bond clerk in the treasurer's office.

Day added that the checkup was not complete and that the shortage might be more than $20,000.

Cortner who handled all bonds and coupons passing through the treasurer's office was indicted recently on a charge of embezzling some $600 of the funds in his care. He pleaded not guilty to the indictment.

Day said that Cortner is under bond of [illegible] and that the state will lose nothing because of the shortage.

## MRS. FERREL GIVEN DIVORCE, SETTLEMENT

### Court Declines To Go Into Status of Decree Granted in Mexico

Mrs Florence Ferrel of Marion yesterday won a divorce decree in common pleas court in a trial in which she ignored a Mexican decree obtained in January of 1934 by her husband Arnold Ferrel of Wyandot county.

Whether the Mexican divorce is legal was not investigated by Judge Russell H. Kear of Wyandot county, who heard the case. The court explained that a divorce was granted Mrs Ferrel to remove any possible doubt about the marital status of the couple.

Mrs Ferrel refused to recognize the Mexican divorce obtained by Ferrel who has since remarried.

The court's order followed a settlement by the litigants of property rights and agreement to the divorce order, given Mrs. Ferrel on grounds of neglect and cruelty.

Judge Kear indicated the status of the Mexican decree was not definitely known and that a study of treaties between the United States and Mexico would be necessary to define clearly its standing. With the new decree given, the status of the Mexican divorce is no longer significant.

Mr. and Mrs. Ferrel were married in Marion Nov. 28, 1917, according to her petition, which was filed about two weeks after Ferrel obtained the Mexican decree on Jan 26, 1934. They have no children.

Ferrel remarried in Texas shortly after he obtained the divorce in Mexico and he and his wife are living on a farm in Wyandot county. He worked for the Erie railroad in Marion for 16 years.

Mrs. Ferrel was restored to her maiden name of Rinehart.

## COURT TO TEST BUDGET SLASH

### Control Board's Rejection of Fund Shift Plea Puts Dispute Up To Tribunal

By The Associated Press
COLUMBUS O June 26—Suit in mandamus to test the right of the controlling board to transfer funds to help state institutions and departments over Gov. Davey's $8,800,000 budget vetoes is to be filed immediately in the state supreme court by the state utilities commission.

Groundwork for the action was laid in the controlling board today by two of the board members refusing to vote on the utilities commission's application for a transfer of $9000 from the salary account to other purposes. The motion to transfer which had been defeated yesterday by a vote of three for to two against was reconsidered and the two members who voted negative refused to vote at all today. Four votes were needed to approve the transfer.

**Wants Suit Data**

[illegible] attorney for the utilities commission was present at today's deliberation for the purpose he said of obtaining material for basis for a suit in mandamus to test the board's constitutional rights to make the transfers. William S Evatt special counsel in the attorney general's office represented the attorney general at today's meeting.

Evatt and State Auditor Joseph T Tracy the two members who refused to vote said the [illegible] solely to lay the foundation for the mandamus action to determine the board's constitutional right to override the governor's veto. In refusing to consider the application for transfer the board is liable to mandamus action Evatt explained.

Finance Director M Ray Allison who with Sen William H Herner Democrat of Huron chairman of the senate finance committee and Rep Julian W Schweller Democrat of Putnam, chairman of the house finance committee voted for the transfer, said he did so because "I do not presume to challenge the delegated authority given me as a member of this board.

**Cites Powers Delegated**

"The governor used his veto power to effect economies and the legislature evidently took into consideration its authority to delegate these powers to make transfers."

"You are willing then to override the governor's veto?" asked Auditor Tracy of Allison.

"I am willing to follow the powers given me by the appropriation bill and precedent already established by this board in making similar transfers heretofore," Allison said.

Tracy said "the governor through his director of finance, has ample authority to effect 90 per cent of the economies which he has sought to make by his vetoes."

## DYNAMITE BLAST KILLS TEXAS BOY

By The Associated Press
EL PASO, Tex., June 26—A boy was killed and three workers injured today by a huge geyser-like funnel of rocks and shale projected by a premature explosion of dynamite at a cement quarry here.

The full dynamite crew of nine men was at first believed killed but all were accounted for several hours later.

The blast audible for miles, occurred at the operation of the Southwestern Portland Cement Co shortly after 8 a. m. (mountain standard time). The charge had been sunk deep in the earth for one of the periodic explosions set for tomorrow afternoon, to remove limestone.

## 4 CITIES PLAN NEW PROPOSAL

### Third Offer of Settlement Will Be Final for Marion, Officials Say

### TO MATCH GALION RATE

### Unless Agreement Is Reached City Will Carry Case To State Commission

Within an hour after the Ohio Fuel Gas Co last night rejected the second rate settlement proposal made by Marion Bucyrus Ashland and Lorain officials of those cities [illegible] decided to submit a third proposal to the company in the near future. The offer was made at a meeting of representatives of the cities and gas company at Bucyrus.

For Marion the third proposal will be final. City Solicitor Theodore H Ochs and W M Fabian member of a council committee handling negotiations said this morning.

They said they are prepared to recommend to city council that a rate now in effect in Galion be enacted for Marion and offered to the company. They added they will recommend that the city take the rate difference to the state utilities commission if the company rejects the third and final proposal.

The Galion rate they will recommend is $1 for the first 500 cubic feet, [illegible] cents a thousand for the next 4,500 and 60 cents a thousand for all above that. Under this schedule the monthly gas bills for Marion residents who use 5,000 cubic feet a month which is slightly higher than the average monthly consumption of Marion customers would be $3.45 or 20 cents higher than under the rate now in effect here the committee's records show.

**Suggested Rate**

The rate definitely rejected by the company last night for Marion and the other three cities conducting joint negotiations with the company was suggested by Marion officials. It called for $3.35 for 5,000 cubic feet of gas a month. This represented a compromise figure between the rate recently granted Mansfield and the present Galion rate. The Mansfield rate under which 5,000 cubic feet cost $3.25 was the first rate proposal made to the company by four cities.

J M Tharpe of Columbus vice president and general manager of the Ohio Fuel Gas Co who with C F Bronson of Marion district manager represented the company at the Bucyrus conference was quoted by officials as pointing out that the present Galion rate could be offered to Bucyrus and Ashland but not to Marion and Lorain because the average annual consumption of each customer in the latter cities was farther below the average consumption in Bucyrus and Ashland.

They also quoted him as saying it would be unfair for the company to grant Bucyrus and Ashland rates that are lower than those in effect in Galion asserting that a majority of the cities in which rate settlements have been made since the Logan gas case was decided in favor of the company have settled on rates that are identical with the Galion schedule.

**"Third and Final" Offer**

City Solicitor [illegible] Ochs said this morning the officials representing Marion in the negotiations felt justified in deciding to offer the Galion rate as the third and final proposal because (1) the city is without available funds to carry on a rate fight and (2) the United States supreme court in recent rulings has, in reviewing utilities commission orders increased rather than decreased gas rates in cities engaged in controversies. He cited a recent court decision in the case of the city of Lima against the West Ohio Gas Co in which the court held that rates of $1 for the first 400 cubic feet, 95 cents a thousand for the next 9,600 feet and 75 cents a thousand for all over 10,000 feet were not high enough. Lima, he said, is served by artificial gas Marion by natural gas.

The company's contention that Marion and Lorain should pay higher rates than the Galion sched-

### *Easy* WAY TO MANICURE NAILS

NO NEED TO CUT CUTICLE

Just the tiniest amount of Manicare on a damp cloth keeps nails in the pink of condition. Dead cuticle is removed without scissors or harsh acids. Hang-nails, brittle nails and cracked nails are avoided. Stains vanish quickly. Manicare keeps the cuticle soft; keeps nails healthy and far more beautiful.

## An Abstract Policy

[illegible] of organized labor, including the independent [illegible] as well as the American Federation of Labor and other national organizations will find nothing [illegible] pleasant or unpleasant in the federal labor policy published by Secretary of Labor Perkins in her department's annual report.

The policy recommends encouragement of such organizations as will give status and stability to labor. It recommends steps to *further peaceful settlements of controversies* and to relieve labor of the necessity of resorting to strikes. It advises that the government do everything in its power to establish minimum working standards which can be maintained independently of the exigencies of competition. It recommends a growing participation of labor in solving *the problems affecting it and a higher degree of cooperation between labor and employer.*

It is in other words an abstract policy. That means it can be interpreted differently to accommodate different viewpoints. Though it favors organization of labor it does not define the terms of organization. *It is a policy which closes no doors and* attempts to open no new ones. The problems which arose under the collective bargaining clause and the problems which are pending now have not been considered directly. The department of labor is interested in helping labor but it has not chosen to define its terms. Neither has the government which even now holds no official position on the disputed meaning of the collective bargaining clause of the recovery act. The wonder is not that there has been much needless confusion in labor-employer relationships but that there has been so little of it.

## Full of Admiration

Announcement that Ramsay MacDonald is to visit the United States soon on an important diplomatic mission adds substance to a suspicion that Great Britain and the United States soon will be making eyes at each other. As the gossips would say, It's a perfect match if they can only get together. Part of Mr MacDonald's job will be to create an atmosphere of friendliness.

Great Britain makes no secret of the fact it is full of admiration for this country. An Anglo-American alliance is part of its [illegible] a detail of its destiny. Since Americans think of the English as their cousins even in anger the matter shouldn't be difficult to handle. The two countries have much in common. Petty differences could be overcome easily.

It will be an interesting development to watch provided one can stay sufficiently detached to watch what takes place instead of participating in the action. The state department in such matters frequently seems to function virtually independently of public opinion but there is no denying the bulk of opinion is favorable to a closer friendship with Great Britain.

There would be more enthusiasm of course if it weren't for the war debt and the universal realization that Great Britain needs the American navy to add weight to [illegible] of the [illegible] balance [illegible] on the [illegible] the United States has certain axes to grind which possibly [illegible] Britain [illegible] to the always fervent American approval of the government's [illegible] intentions. Potentially it is a perfect match. [illegible] MacDonald should not have more than [illegible] amount of trouble arranging [illegible].

## Out With 'Em

A [illegible] bill [illegible] for the [illegible] of [illegible] to [illegible] the problem of aliens [illegible]. Out with 'em.

An alien who has a job [illegible] purchasing power [illegible] 6,000,000 of [illegible] tries [illegible] American citizen [illegible] it would decrease [illegible] the country's total purchasing power.

One further objection might be [illegible] by a skeptic. There seems to be the possibility of more difficulty in [illegible] 000 persons [illegible]. Their governments would not be anxious to kill the fatted calf to welcome them home.

In many cases there would be difficulty in determining [illegible] should be [illegible]. The [illegible] in the [illegible] of the [illegible]. Its [illegible] United States [illegible] make [illegible] as they [illegible]

## Importance of Impressions

[illegible] caused [illegible] few [illegible] Only a few years of casual cheering [illegible] American melodramas would be required to make a saint out of the possibilities. The [illegible]

[illegible] he recalled no one [illegible] anything pertaining to [illegible] munitions makers in a [illegible] correct [illegible] holding [illegible] the result is no [illegible] when such an investigation is under [illegible]. It may be [illegible] but that [illegible] is.

The senate munitions committee interested primarily in taking the profits out of war has been probing into many sections of the business of preparing the United States for combat. It has not been disappointed yet. The munitions industry's methods were the best find. That was partially because some of the disclosures were startling. People didn't think the industry really was that bad. In the shipbuilding industry however the situation is different. If the whole truth were known the industry probably isn't as bad as it's believed to be. Maybe the shipbuilders should conduct an investigation of their own to prove they really aren't deserving of the reputation they possess. That would be an interesting variation in the investigative art which seems to flourish in the United States on an inexhaustible supply of dark and mysterious practices.

## Italy's Creed

No better key to an understanding of modern Italy exists than Premier Mussolini's story of the soldier who said It is better to live one day as a lion than a hundred years as a sheep.

That explains why Italy will do as it pleases in relation to Abyssinia. It explains why Italian children are carrying guns and learning to be soldiers.

It explains why Premier Mussolini believes nations are made strong by war. Italy is walking toward the future with its chin held high in pride of its military strength.

Germany [illegible] in imitation of Italy is trying the same policy. The army is its symbol of achievement. The soldier is its ruler. Strength is its purpose.

It is an effective and easy way to unify a population. By using it leaders automatically provide an objective so understandable there can be no misunderstanding.

There are dangers too but they are not heeded. The man who believes it is better to live one day as a lion than a hundred years as a sheep is not likely to be either cautious or considerate.

He may discover furthermore that his neighbors though they prefer peace to war are not incapable of imitating the lion once they are aroused. Germany could tell Italy something about that if it remembered. But Italy whose leonine leader does not permit his people to know what is not good for them would not be dissuaded. He has imprinted his personality on the country for better or worse. Italy's destiny is predetermined in military patterns because its strongest man believes that is best.

## Good Advice

One wonders how much of the good advice showered gratuitously on respectful audiences at commencement time penetrates beyond the [illegible] ear. Not much probably.

Yet it is impossible to escape the impression at the close of each commencement season that a mass contribution to knowledge has been made. So many [illegible] are so many thoughtful and learned men could not present their ideas on timely problems almost simultaneously without at least making a scratch on the American mind.

Addresses this year showed a tendency toward realistic thinking on hard problems. [illegible] tendency which if it had been the rule always would have left many listeners awake during commencement exercises of former times. The United States as its leading thinkers see it [illegible] where it is going but is trying to find out. No one in the [illegible] however if [illegible] is [illegible] the [illegible] to pretend to know [illegible] who [illegible] why.

After exposing itself in the best editorial shops for many well placed kicks it finally landed in a back stairs shocker called The Fireside Monthly. At the extraordinary remuneration of $1. The title was The Roof Garden Crime and there was a wicked lady in red named Hildegarde Heerlot which is all I remember and which is quite enough.

# Washington And Wall Street

BY PAUL MALLON

WASHINGTON June 26—If you get President Roosevelt's political brain trusters off in a corner they will candidly confess his wealth tax *program* is one of the smartest moves he ever made. They explain the generalship behind it this way:

The only real political danger presses President Roosevelt from the left (not only Long, Coughlin and Townsend but the following they represent). His strategy must confuse to draw wind from their sails. His move will becalm them for 36 they must ride on his boat or walk.

He need not consider the conservative Democrats. They have no place to go except where he can take them. (The strict primary laws in the south are regarded as a protection against an independent movement.)

As for the Republicans he would like to pass them as far right as possible thus making them lose the Borah Nye La Follette Norris following to him.

Note—These views are not shared by all politicians outside the Roosevelt entourage. In the first place some disagree as to the extent of the danger from the left. Improved business conditions might help [illegible] any formidable movement from that end. If better business will elect Mr Roosevelt the proposed tax against corporate business will not contribute to that end.

#### Economics

Nearly all insiders agree the move was economically doubtful. No politician will care to defend vast wealth these days at least not publicly. Yet most agree that wealth is a builder. That it pioneered the development of the country. Not the Astor type of wealth which came from real estate speculation but the Harriman and Hill type which built the railroads, the Ford type which build the automobile, the Radio C[illegible] of Rockefeller. What influence will take the economic place of wealth is not yet evident unless it is the government.

The answer to that probably is that the tax pudding will not be eaten as hot as it is cooked. Wealth has always found a way to survive.

#### Note

Mr Roosevelt's pals now say his wealth tax idea has been in his mind for many years. He wanted to make a speech on it in the 32 campaign but was talked out of it by his political advisers. A brief message he sent to the legislature while he was governor of New York contained some of the same theories.

#### Muscle

Old time politicians like to say that contributions are the sinews of war. If so [illegible] squint at the [illegible] of Democrats and Republicans by [illegible] to their la[illegible] financial [illegible]. These show the Democrats collected roughly 60 times as much as the Republicans during March [illegible] and Ma[illegible] [illegible] $15,061 Republicans [illegible].

The [illegible] Democratic head [illegible] $3000 a week which is [illegible] as much the Republican [illegible] in the [illegible] months.

[illegible] Democratic contribution list [illegible] of large donations ($1,000) [illegible] the Republicans [illegible] have been [illegible] their chil[illegible] [illegible] $350.

#### Mortgages

The [illegible] 44,976 [illegible] the R[illegible] $4,056. The [illegible] was [illegible] $4,000 [illegible]

[illegible] debts [illegible] paid [illegible]

#### Refund

[illegible] a check for $1,[illegible] was returned to Harry M Warner the movie man. It seems that the check arrived just about the time the Mr Warner's firm was indicted by the Justice Department for violation of anti-trust laws. Mr Warner was a leading contributor in the 32 campaign.

#### Anemia

What our diplomats see in the London-Berlin naval agreement is the ultimate death of the League of Nations. Japan and Germany have deserted. Italy is threatening to [illegible]. Now John Bull has turned from the original League idea of multilateral agreements to the old pre-war idea of bilateral pacts.

The League serves as a children's court in international affairs. It settles minor border disputes among small nations but it is too weak to handle the adult powers.

#### Balance

The travels of Capt Anthony Eden to Paris and Rome are in accord with England's traditional policy. Her game has always been to play first with one side and then with the other on the continent thus maintaining herself as a balance of power and preventing any continental nation from getting too big. Now that she has made a naval agreement with Germany she will sidle up to the French and Italians. Our diplomats are only casually interested.

BY JAMES McMULLIN

NEW YORK June 26—Mr Roosevelt's new tax-the-rich program is rated by keen observers a fair warning to his big time opposition that hereafter no holds are barred. He's tried conciliation and they've taken it for weakness and gone on endeavoring to wreck him while talking cooperation. So now he's setting the stage for a knock down and drag out scrap to determine who really is boss—the U S government or the money power. From this angle the unlikelihood of congressional action at this session is unimportant.

The main target at which the President is aiming is the powerful backstage combine between Tammany Hall and the wealthy banking and utility connections. This combine has functioned smoothly and efficiently behind the scenes for years to the huge *benefit of insiders* and the hard luck of New York City (and to some extent national) taxpayers. Nowhere in the country are so many of the super-wealthy at whom Roosevelt is shooting gathered under one tent as in the secret political-financial alliance in New York. It's bad form to stick up for Tammany publicly in Wall Street but a number of the boys who coin their money in millions know who has to be in power locally if they are to get gravy of the richness they crave. As plainly as if he had said it in so many words the President has told them so you won't play and you want a fight? O K here it is.

While paying lip fealty to Mr Roosevelt as *leader of the Democratic party*, Tammany men in congress have bit gouged mis ep [illegible] and hit in the clinches. They have an extensive repertoire of tools and they've used them all to [illegible] his program while their financial associates have rendered [illegible] though mostly unseen—as staunch informed sources figure the President has everything to gain and little to lose by forcing a showdown. If he makes concessions he's licked anyway. Congress's opposition has a plenty to lose if he continues of war [illegible] again [illegible].

#### Inquiry

The New York Sun has lately [illegible] a [illegible] of New Deal [illegible]. That's significant in [illegible] the [illegible].

[illegible] in a position to know [illegible] the sum the organ of those who wish to keep Tammany in line—because the profits are higher that way. They add that the Sun—while nominally a Republican paper—can always be counted on [illegible] for Tammany on any crucial issue. When the chips [illegible] the carpet it puts on a convincing show of objective neutrality in city affairs. They believe it's a fair assumption that interested financial and political circles reciprocate the subtle service.

An example of the pinch-hitting referred to is the Sun's recent sniping at the grand jury which has been trying to work up a real investigation of New York City racketeering. There's no doubt that such an investigation would yield sensational fruit if it were fearlessly and intelligently pressed. But Tammany has succeeded in blocking it off unless Governor Lehman—under Washington inspiration—acts with unexpected vigor. It's suggested in astute quarters that a searching inquiry into the Sun's two-way tunnels between New York's financial and political powers would lead to some very intriguing revelations. An inquiry of that sort may be in the cards later.

#### Bloc

The President's tax proposals also cracked the whip at the big gun backstage organizers of the group of 24 Democratic senators—under the leadership of Byrd of Virginia and Clark of Missouri—who have done such a sweet job of sabotaging the new deal by messing up the President's measures. Small wonder so little has been heard from Republican senators of late. Why should they get hot and bothered when these Democrats are doing all their work for them?

The group of 24—utility inspired and banker supported—has a subtle sabotage technique. They never appear openly as a bloc. They back Roosevelt *on unimportant issues to* give the impression of party loyalty but when something vital comes up they hamstring with skill. Sample: Bennett Clark's amendment to the social security bill exempting companies with private pension systems. It may well be—as alleged—that this addition makes the whole bill unconstitutional. If so that was the idea. The bloc's origin traces back to the pre-Chicago stop-Roosevelt movement in 1932—headed chiefly by Albert Ritchie and Newton Baker. The objective is unchanged. These senators—and their supporters behind the scenes—propose to prevent Roosevelt's renomination in 1936. Failing that they propose to beat him for re-election.

Curiously Carter Glass is not one of the 24. He wasn't needed—and he wanted to concentrate on the money and banking angle. Naturally the bloc is backing him warmly in his fight to squelch government domination of the banking system.

#### Glasses

Railroad borrowing from the RFC was down to 10,000,000 in the first five months of the year. This is the lowest figure over a comparable period since the RFC was set up in 1932.

This sounds like grand progress for the rails until you inspect the reasons. One is Jesse Jones' recently adopted policy of extending loans as they come due instead of arranging new ones.

Another factor was the series of defaults by Western Pacific, Chicago & Northwestern, Chicago Milwaukee & St Paul and Denver & Rio Grande—defaults which the RFC had previously staved off but decided to do so no longer. So don't put on rose-colored glasses when you look at the rails.

#### Soap

He sold a building in the Wall Street district for considerably more than he expected [illegible] million dollars. When the contract was signed and everyone happy he [illegible] had an afterthought and [illegible] I forgot. We have two kegs of [illegible] soap in the basement. Wouldn't you like to buy those too?

# County Burns Road Bonds at Celebration

*Pavement system outlives 1915 bond issue—"good for another 20 years" say local taxpayers*

WAY back in 1915 Vermilion County, Illinois, floated a $1 500 000 bond issue to build a system of paved roads Vermilion people wanted to get out of the mud—to connect towns—to speed produce to market--to bring schools closer Naturally, they chose concrete

And the wisdom of their choice was shown on June 5 when a great concourse of farmers and towns people drove over the 18 year old concrete roads to watch the burning of the paid up bonds at a big celebration in Danville

The original 145 miles of 10 foot concrete roads are still in service (50 miles of pavement since widened to 18 feet) and more have been added until this farsighted county has approximately 250 miles of pavement on farm to market routes

The original concrete is in splendid condition after 18 years hard use That s typical of concrete It is low in upkeep … cheapest in the long run … safe night or day, wet or dry … comfortable and economical to drive on

## SALVATION ARMY WILL OPEN CAMP

### Delaware Park Ready for Seventh Season.

Special to The Star

DELAWARE, O., June 26 — The Salvation Army camp at Greenwood lake, ready for its seventh summer of activity, is expected to be the scene of outings this year for approximately 1,000 underprivileged children, boys and girls.

The camping season will open July 12 when 100 boys from Columbus will spend two weeks there. Later 60 boys under supervision of Franklin county juvenile court will go there for 10 days and afterward underprivileged mothers and girls from Columbus and Delaware will be given outings.

Two unruly swans which hissed at children and jumped into boats on the Greenwood lake have been made wards of the state, by camp officials. They were turned over to the Ohio state fair recently.

## GRAND ARMY GROUP IS ENTERTAINED

The Grand Army Helpers met Friday night at the home of Mrs. Maude Obenour of 386 Silver street for a potluck dinner. Contest honors were won by Mrs. Mary Brown, Mrs. Ella Poland, Mrs. Ella Wise and Miss Glenna Wise.

Miss Wise and Miss Gertrude Miller were guests at Friday's meeting. The group will meet again July 19 at Lincoln park for a picnic.

# Marion Girl Wins $75 Prize in Dress Knitting Contest

A dress [illegible] designed and [illegible] by a young woman of the city has won [illegible] award of $75 and [illegible] [illegible] the fall [illegible] of the year [illegible] sponsored [illegible]

Miss [illegible] Thomas, 2? [illegible] Mr. and Mrs. [illegible] Thomas of 4?? Fa[illegible] [illegible] received word [illegible] dress was [illegible] of 25 [illegible] for the $75 award.

Miss Thomas' dress is a [illegible] piece of [illegible] of chi[illegible] trimmed with a shade of orange bordering on a deep peach. The long [illegible] is open in the back [illegible] the waist and is fastened at the neck with [illegible] matches the shade of the trimming.

The stand-up band around the high neck and a band which extends from the neck over the shoulders to the bottom of the bell-shaped sleeves are of the orange peach shade. The seams which join the bands to the neckline and the sleeves are the only seams in the two pieces.

Miss Thomas spent a month knitting the dress, all of which was done on round needles. The body of the dress is the stockingette stitch, the trimming is the moss stitch and the tasseled belt which is looped at the waist is braided crochet.

With the dress Miss Thomas sent detailed instructions for the knitting. At present the dress is being used by the manufacturers as a model for sample dresses for display in stores where their yarns are sold.

The dress is the first attempt at designing Miss Thomas has ever done although she admits changing every pattern she has ever used.

Since she was a small child Miss Thomas has knit generally sweaters and berets and when the rage for knitting struck Marion she was prepared.

Miss Thomas is employed at the Frank Bros. store.

SWP HOUSE PAINT

You can tell the difference between SWP and a single pigment and oil job The SWP job is glossy fresh and smart looking The single pigment job appears prematurely dull dirty and shabby looking—even though protection may still remain in the paint This is usually true because single pigment and oil paint has less control of chalking —weather roughens it and dirt and soot cling to its roughened surface Modern SWP with its Multi Pigment balanced formula produces a clean just painted kind of job that stays lastingly beautiful There is one sure way to get a lasting and economical paint job—insist on SWP

## Detroit Negro Knocks Out Italian in Sixth Round

### TAKES PRIMO AND NEW YORK BY STORM

### Referee Halts Match as Giant Grows Defenseless to Powerful Blows.

BY ALAN GOULD
Associated Press Sports Editor

[illegible]

Down Three Times

In a [illegible] of the [illegible] ring with [illegible] the Brown Bomber [illegible] slugged the [illegible] Italian into a helpless [illegible] and [illegible] the [illegible] predictions of his backers.

Carnera was knocked down three times for short counts four [illegible] and three seconds before Referee Arthur Donovan stopped the fight with only 26 seconds of the sixth round left.

The defenseless giant was bleeding from the mouth and was thoroughly [illegible] at the end of a one sided match. It undoubtedly marked the end of Primo's career as a factor in the heavyweight picture.

Promoter Mike Jacobs one time associate of Tex Rickard promptly announced Louis will be matched for 15 rounds with Max Baer former heavyweight champion in New York this fall.

Louis told Jacobs he would be willing to fight once a month. The promoter said he would seek a match in late July or early August.

We may try to match Louis with Jack Doyle the Irish heavyweight who made his New York debut with a knockout this week said Jacobs.

Sees No Color Line

The fight world acclaimed the sensational Negro youth as the latest successor to such dusky greats as Peter Jackson Sam Langford and Jack Johnson only Negro to hold the world heavyweight title and a witness to the triumph of the Chocolate Clouter last night.

James J Braddock newly crowned king of the heavies also was a spectator. It remains to be seen whether the Brown Bomber fights his way to the position of logical contender by the time Braddock is willing to consider a title defense some time next year.

Braddock will not draw the color line" said Joe Gould the champion's manager but it's too early to talk about a championship match with Louis or any other contender. Jimmy will be ready to tackle the best man they can produce.

Greatest Since Dempsey

Fight critics were unanimous in ranking Louis as the hardest hitter since Dempsey. They compared him to Gene Tunney from the standpoint of his boxing skill footwork and ability to seize openings. Carnera cleared up one obvious point by remarking with emphasis that Louis hits much much harder than Baer.

Baer floored Carnera 10 times against three knockdowns for Louis but the Italian giant rallied sufficiently a year ago to last 11 rounds with the Californian. There was never any doubt about the outcome in either fight but Louis performed a much more workmanlike and effective job.

Louis established mastery in the first round with a few short but staggering blows one of which opened a gash in Primo's mouth.

The Negro did not land a knockdown punch in this or the succeeding four rounds. He stalked the Italian boxing warily for openings shifting his attack from head to body, but always had command.

Fight Is Stopped

The climax came swiftly in the sixth. Louis floored Carnera with a terrific left hook for the first time. Primo thoroughly dazed pulled himself erect at the count of four only to be met by another two fisted blast. He tumbled weirdly started to get up but lost his balance and fell to one side. Again he was up after four seconds too far gone to realize the advantage of taking a longer count.

Helpless and glassy eyed the giant wobbled to one side of the ring where a terrific right hand smash sent him spinning to the canvas again.

This time he regained his feet after only three seconds. Blood [illegible] wire [illegible] Referee [illegible] hesitating [illegible] the Negro [illegible]

[illegible] that [illegible] size of the [illegible] attracted to the heavyweight [illegible] Jack Sharkey [illegible] Max Schmeling in a title match [illegible] in 1929.

Promoter Jacobs [illegible] the paid attendance at 57,000 but there were actually close to 70,000 spectators in the big American League ball park including the holders of thousands of complimentary tickets and about 1,500 police who quickly discovered that the talk of possible race disturbances was a false alarm.

The gross receipts $340,000 fell below expectations but marked a new high for a non title match in the last five years. They far surpassed the gate for the Baer Braddock championship bout. The net receipts were set at $277,100.

### Life Has Not Been Easy for Joe Louis

By The Associated Press

NEW YORK June 26—Twenty one years ago an ebony mite came to join four other pickaninnies at the Alabama cabin of cotton picker Munn Barrow.

Barrow looked at the baby without dreaming that some day he would grow to rugged manhood and as Joe Louis thump his way out of his squalid surroundings to fistic prominence and wealth.

Two years later the father deep in debt died. There were some lean years in the cotton section and then Lily Barrow packed up her brood and moved to Detroit.

At 12 Joe worked after school carrying ice and at 11 he quit grammar school to enter a vocational institution and learn cabinet making.

One day a classmate a fair amateur fighter invited Joe to don the gloves with him and although Joe knew nothing of the art he consented. He proved to be a poor opponent but that experience awakened in him a desire for ring action.

In 1932 he entered the amateur prize ring opposed Johnny Miller and received a thorough lacing. He went on however to run up a string of 41 consecutive knockout victories.

Less than a year ago he made his professional debut in Chicago knocking out Jack Kracken in a round. He then won 2? straight victories 19 of them by knockouts before getting the bout with Primo Carnera massive Italian and former world heavyweight champion.

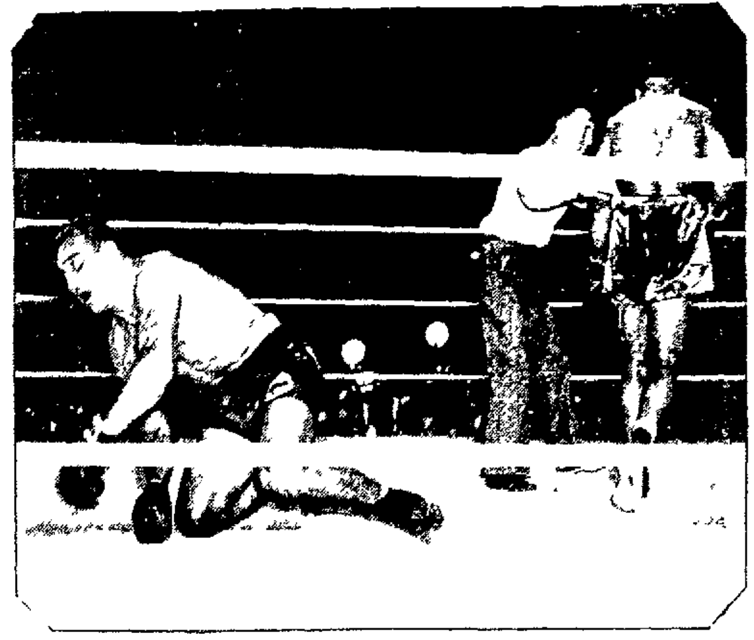
AS "BROWN BOMBER" KNOCKED PRIMO CARNERA TO CANVAS



Bleeding and foundering Primo Carnera former heavyweight champion of the world portrays a pathetic figure lying on the floor after receiving terrific rights and lefts from Detroit's Brown Bomber Joe Louis. The scheduled 15-round bout came to an end in the sixth when the 21 year old Negro floored the Italian giant three times. Referee Donovan stopped the encounter and awarded the fight to Louis on a technical knockout. Louis is shown being led to neutral corner.

### Ohio Amateur Linksmen In "Survival of Fittest"

BY FRITZ HOWELL
Associated Press Sports Writer

CINCINNATI O June 26—Ohio's amateur golfers were face to face with that old survival of the fittest adage today as they enter the final 36 holes of the qualifying round for the state Simon Pure tournament.

In this case a hasty survey of yesterday's scores shows the fittest will probably be the boys who have a pair of 80s or better. Those sharpshooters who turn in the low 32 scores will stay in the scrap meeting in which play the rest of the week—with the title awaiting someone on the final green Saturday. The others are out so far as championship aspirations are concerned.

Meister Leads Field

Pre tourney dope had it that 160 or 16? would be good enough to qualify but with perfect weather prevailing yesterday the boys shooting from the front of the tees at Kenwood Country club and the flags on easy spots on the greens the scores dropped below expectations. All that's been changed today. They're firing from the back of the tee and the cups are on top of the rolls but the scores are expected to stay down.

Cleveland's 19 year old Eddie Meister who copped the state high school crown two years ago but who has now grown up into a William and Mary college student was perched all by himself in the sub par department as the sharpshooters opened today's round. Eddie trotted himself to a par crashing record breaking 4 four under even figures on the outgoing nine yesterday slipped to 35 coming home but posted a neat 70 one under for the route.

On his heels with even par 71s were Tom Whiteway of Cleveland Curtis Reed of Chillicothe and Jack Deetjen of Akron at just a stroke behind that formidable trio were Bob Kepler of Dayton 1931 champion and DeWitt W. Balch of Cincinnati who took the crown far back in 1913 and then did it all over again in 1919 to prove it was no fluke.

Near Cards of Leaders

The rest of the field was scattered far and wide. Some of the scores mounted above the century mark but the majority of the top-notchers and pre tourney favorites were within striking distance of the leaders and were expected to qualify.

Bob Servis of Dayton runner up in 193? and 1934 and champion in 1293 was close in with a 73 while Johnny Florio of Columbus, two-time champion and a favorite to take the crown again was in good shape with a 75. Maurice J. McCarthy of Cleveland 1934 winner is not competing because of inability to get away from business.

Match play will start Thursday with 18 hole matches morning and afternoon. The finals over 36 holes will be staged Saturday.

### WHAT WAS SAID AFTER THE FIGHT

By The Associated Press

NEW YORK June 26—Here's what the principals said after Joe Louis the Detroit Bomber knocked out Primo Carnera at the Yankee stadium last night.

Carnera: He hits harder than Max Baer. He's the hardest hitter I ever met. [illegible] the [illegible] he's a good boy and some day he may be champion.

Louis: Carnera didn't hurt me. His left [illegible] me some but not much. I was just waiting for a [illegible] I told my managers after the fourth round that if I didn't get him in the fifth I would in the sixth. I did.

Jack Blackburn one of Louis' managers: We didn't hurry Joe. We [illegible] him to see what Carnera had [illegible] out. He might have finished the big fellow earlier.

Bill Duffy one of Carnera's managers: Louis is a sweet fighter but Primo had no business playing into his hands as he did. He led all the time and laid himself wide open for just what he got.

lower McVavey's bond saying the fixing of bond rested solely with the municipal court

Authorities said they filed the automobile stealing charge against McVavey after an investigation indicated the charge was warranted

We have plenty of evidence to support this charge Prosecuting Attorney Paul D Michel who fought McVavey's habeas corpus action said

He had pointed out in the hearing this morning that authorities in several cities were checking on McVavey's activities in an effort to connect him with several crimes He also said a department of justice representative is expected to come to Marion today to assist in the investigation At noon today he said a representative of the state bankers association had come to Marion to check up on McVavey's activities

The prosecutor contended in the hearing on McVavey's petition for freedom that police have a right to hold a suspect a reasonable length of time to enable them to complete an investigation adding he understood that 72 hours had been recognized as reasonable time Fred W Warner speaking for McVavey asserted supreme court interpretations of law were that a man could be held without a charge only long enough to permit authorities to prepare a charge against him

McVavey was arrested Monday night as a suspect in theft of an automobile and in connection with the finding of a large quantity of merchandise believed by police to have been stolen

**Identified as Renter**

Police Capt Fred Norton today said a woman in whose garage the stolen Urbana car was found identified McVavey last night as one of the two men to whom she had rented the garage

In the habeas corpus hearing the prosecutor asserted McVavey has nearly $5000 deposited in different banks under a variety of names and expressed fear that McVavey would post bond and disappear if released on a small bond especially since the department of justice had taken a hand in the investigation

# SECOND RATE OFFER REJECTED BY GAS CO

(Continued from Page One)

ule was brought out in a previous negotiation conference in Ashland last Thursday In that conference company officials said the annual average consumption of gas for each person in the four cities seeking rate settlements is 75000 in Ashland 69000 in Bucyrus 51000 in Marion and 73000 in Lorain It also was emphasized that the company spent as much money serving cities with low consumption as those in which the consumption was high making it necessary to increase the rates in cities where the average annual consumption was unusually low

Mr Frost in this morning said rate negotiations are being carried on with the understanding that when and if a settlement is made with Marion the company will begin work immediately on construction of a new feeder line to increase the available supply of gas for Marion He said construction of the new line would result in expenditure of approximately $10000 within a year's time

tax extension measure now pending in the senate

**Can Be Short or Long**

As the committee action taken into last night became known Speaker Byrns at his press conference said this to newspapermen

If the ways and means committee will report out another resolution extending nuisance tax 30 to 60 or 90 days so as to give the senate an opportunity to consider these new taxes that will save us the loss of a million and a half dollars a day and enable us to adjourn in two or three weeks

If on the other hand it becomes necessary for the ways and means committee to build a new bill from the ground up and it has to go through all that pow wow with the senate we'll be here two or three months more

**Emphasizes Stand**

Leaning forward in his chair to emphasize his words to Doughton who was present Byrns added

And that's the God's truth

I'm not disputing that Doughton said

The ways and means committee chairman however declined any further comment and Byrns continued that whatever the ways and means committee does I'm for but I feel that as a member of congress I have a right to express my personal opinion

One concession to critics was an order for hearings but with a limit of two days Until [illegible] there will be hearings if anybody wants to be heard but they will be brief not more than two days

**Demand Less Speed**

The criticism centered around three contentions Some Republicans and some Democrats demanded less speed saying such a major measure should be considered more at length Among them was Sen Clark Democrat of Missouri who threatened a filibuster Rep Wadsworth Republican of New York criticized the speed with which he said a fantastic proposal was being pressed

Then there was resentment in the house among members who insisted that house [illegible] should be the one to put the tax bill into form

[illegible] advocates of [illegible] tax on wealth came criticism that the tentative schedules made public [illegible] Sen [illegible] Republican [illegible] called the program a farce Sen Long D [illegible] crat of Louisiana said it was a fraud as a redistribution of wealth proposal

# REORGANIZATION OF MILLS IS DISCUSSED

### Susquehanna Company With Plant Here Explains Plan To Creditors

A reorganization plan for the Susquehanna Silk Mill operating a branch plant in Marion was explained to lawyers and creditors at a meeting in New York City yesterday The Associated Press reported

The suggested plan is predicated on likelihood of the mills not doing more than $10 000 000 worth of business a year for a number of years to come It was explained to lawyers and creditors by Harry I Caesar of H A Caesar and company

The meeting was called to consider a plan intended not for expansion but [illegible] to let the company now in trusteeship go on

Caesar suggested that a yearly profit of $300 000 might be expected from an annual gross business of $10 000 000 He was unable to tell Lemuel Skidmore counsel for creditors how much it was proposed to pay Henry Schniewind a year as president of the reorganized concern

The meeting presided over by Federal Judge Henry W Goddard was adjourned until Thursday

In an Associated Press dispatch from New York on June 10 L J Wehbring treasurer of the mills was quoted as saying that a two-thirds majority of creditors and more than one-half of the stockholders would be required to approve the reorganization plan before it could be made effective

## MARION CO. QUOTA IN CCC CAMP FILLED

### Applications Still Accepted for Next Enrollment To Be Made About Aug 1

The Marion county quota of 23 youths to be enrolled in the first summer enlistment July 1 in the civilian conservation corps has been filled it was announced today by Boyd Titsworth deputy CCC selecting agent here However applications are still being taken in preparation for succeeding enrollments the next coming about Aug 1

Thirty five applications have been accepted by Mr Titsworth and 29 youths will be taken to Mansfield next Monday where they will be given a thorough physical examination and the quota of 23 will entrain for Camp Knox Ky After a short training period in the camp the boys will take another examination before being assigned to CCC camps in the Fifth and Ninth army corps areas

All applicants are from families on federal relief rolls between the ages of 18 and 26 unmarried and unemployed The new summer enlistments have been made possible by the appropriation of funds for the continuance of the CCC from the $4 800 000 000 works relief appropriation approved by congress in April

The Marion county contingent will be enrolled at Mansfield under the supervision of Capt Charles H Brammell Other nearby counties will enroll at Mansfield Columbus and Lima

The Fifth corps area comprises Ohio Kentucky West Virginia Indiana and a part of Tennessee and the Ninth Corps area is composed of Pacific coast and western states.

## Your Health

BY DR. R. S. COPELAND

### Medicine Chest

NO CONSCIENTIOUS housewife [illegible] the necessity [illegible] medicine chest [illegible] household utility is [illegible] medicines [illegible] emergency it is difficult to [illegible] and worthless drugs [illegible] appliances the article [illegible] needed.

The greatest [illegible] of an untidy medicine chest is the danger [illegible]. A dangerous drug [illegible] no label is [illegible] mistaken for a simple remedy [illegible] a bottle of similar shape. This is a blunder that in all too many instances has led to severe and even fatal poisoning.

Not long ago I told you about strychnine poisoning, pointing out that in children this is the most common cause of death by poison. Young children are attracted by the chocolate covering of pills containing drugs, mistaking them for candy. All tablets, capsules or liquid medicines containing drugs of this nature must be plainly labeled and kept far from the reach of children.

We hear [illegible] the adult groping [illegible] for some medicine and laying his hand on the wrong bottle. This danger can be overcome by placing the medicine cabinet near an electric light and even if reasonably sure always reading the label carefully before taking the medicine.

If a bottle has no label or is aged discard it. That has always been the rule in my office. It might be everybody's rule. Never take it for granted that it contains a certain medicine because the bottle seems familiar in size, shape and color.

I venture to say that the majority of household medicine chests contain a lot of junk and few valuable or useful medications. Take inventory of your outfit today. Destroy all old prescriptions, unlabeled bottles and spoiled salves and ointments.

On the other hand make sure that you have at your disposal adhesive plaster, sterile gauze bandages and absorbent cotton. Always keep at hand an antiseptic like tincture of iodine. These articles are of value in an emergency and may prevent some unfortunate complication while awaiting the arrival of a physician.

If your doctor prescribes a medicine that contains a poison, make sure it has a place in the cabinet where it will be conspicuous and [illegible] distinguished from other remedies. Again let me say never [illegible] medicine in the dark [illegible] knowing what the label reads. Avoid preserving medicine over a long period of time.

# CHICAGO CONVICTS DILLINGER'S LAWYER

## Faces Term for Arranging Face Lifting Operations To Baffle Officials

By United Press

CHICAGO June 26 [illegible] Piquett [illegible] mouthpiece for the late John Dillinger was convicted [illegible] of harboring Homer Van Meter [illegible] machine gunner for the once powerful Dillinger gang

A federal court jury deliberated an hour and 24 minutes to reach its verdict a contrast to a previous acquittal on a charge of harboring Dillinger

Principal evidence against the ex bartender and former city prosecutor was that he arranged for face lifting operations intended to disguise Dillinger and Van Meter at a cost of $5,000 each

The disguises which included attempts to eradicate finger prints were useless for Dillinger fell under the guns of department of justice agents outside a Chicago movie house and Van Meter was slain by St Paul police

Piquett's florid face blanched as the verdict was read. He had squirmed during final arguments when the vigorous youthful Irwin McMahon special prosecutor sent from Washington had called him a master criminal and [illegible] with the soul of a serpent

I have nothing to say Piquett said with an attempt to smile but the verdict will certainly be appealed

Piquett is under $20,000 bonds

The move to eliminate the lawyer criminal from society has received great impetus by this conviction McMahon said as he received congratulations from spectators who have crowded the court room throughout the week long trial

Piquett is subject to two years in prison $10,000 fine or both

# Marion Merchants are Determined to Overcome a Backward Selling Season With

# Three Great Merchandising Days — Thursday, Friday and Saturday

# June, 27 – 28 – 29

## It's Not That Business Has Been Bad, It's Really Been Pretty Good — but most everyone expected it to be much better —

### HERE'S THE WHOLE STORY

*What with the farmers having money, prices being up and the AAA funds distributed, more folks on factory payrolls, relief taking care of unemployed and business generally being better, most all merchants counted on May and June to be extra good months. The set-up seemed about right and experience over the past several years indicated warm, summer weather. It turned out that right there is where the difficulty came in. May and June weather have been most unseasonable, from the standpoint of selling merchandise.*

*No one is complaining about the weather. As a matter of fact, better than four inches of rainfall in May and about the same for June are giving us the best outlook for crops in years. But, the drouth years with warm, sunshiny days through the spring caused everyone to get in the habit of expecting a rush business on linen suits, automobile tires, sport shoes and summer hats during May and June. Ten years ago perhaps, this season would have passed as a normal one and all would have been serene. But last February and March, buyers figured that May and June, 1935, would be just about like May and June of 1934 or 1933 and store managers set up quotas that included a full share of picnic plates, fishing tackle, cotton yard goods and bathing suits Well, with only four clear days in the whole month of May there haven't been many picnics and with an average temperature of 56 degrees, there wasn't much swimming, so all along the line, departments that depend on warmth and sunshine have fallen down, and store sales hasn't reached the figures that were expected.*

*Now, simply because sales haven't been so good so far, doesn't mean that summer goods isn't going to sell. White shoes are just as good this year as last, actually better, if you follow style trends, and further than that, you can count on seeing them along with Panama hats and seersucker suits and dresses until late September. To be real truthful, sales of wash ties and half hose can usually be counted to take care of themselves; when the weather is right, the goods will sell. But the problem the merchant is facing is the shortage in gross sales caused by backward seasonable departments. Marion merchants want to overcome these shortages. They want their total gross figures to match the quotos which they set for May and June back in January. The majority of them have maintained substantial increases over 1934 to this point and they wish to continue so. The method is to be a great merchandising event over the last three business days of the month. Merchandising promotions are to be launched in all departments of all stores Thursday, Friday and Saturday. It's sales that merchants are going after, sales to bring May and June and the first half of 1935 up to their proper and expected level.*

## Just Glance at this Chart for the Fun of Seeing How Unseasonable May and June, 1935 Have Been as Compared to the Same Months of Last Year.

FOLLOWING IS THE OFFICIAL WEATHER REPORT, RAINFALL RECORDINGS AND HIGH AND LOW TEMPERATURES FOR THE MONTHS OF MAY AND JUNE 1934 AND 1935 AS SHOWN BY THE RECORDS OF DR. E. H. RAFFENSPERGER, OFFICIAL WEATHER OBSERVER.

First place in the No 1 circuit would be split between the Presbies and Calvary if the present leaders lose tonight in the double header night program and St Mary turns back Calvary in the second night game

**Two Last Games**

Two red-hot contests and the colorful pitching exhibition of Maynard Snyder Forest Lawn ace featured yesterday's softball activities Trinity Baptist spilled the Irish from their deadlock for first place yesterday afternoon The winners [illegible] the fifth inning when Howard Jones connected for three bases and came home on Coyle Wels single Rice held St Mary to two hits and Francis Robbins gave the Baptist team five blows two of a scratch variety

First Reformed team after skidding for two weeks returned to its old form yesterday and won a close game 3 to 2 from the Calvary nine at Garfield park Dale Schwaderer held his foe to five hits while his team played better defensive ball behind him The winners garnered seven blows of Haldeman including a lusty triple by Schwaderer

Calvary scored its two runs in the second to take the lead Myron Gibson doubled and came home on Bill Baldauf's single The latter scored when Applegate was safe on an error Reformed scored one run in the third and one in the sixth The winning tally came in the seventh when Schwaderer tripled and came home on Windy Knickle's single Knickle connected with the bases loaded and two men out

**"Obie" Stars**

"Obie" Oberlander Presby centerfielder played a brilliant game as the Presbies won a loose contest 8 to 2 from the Methodists at President field He made three putouts in the field and connected for a home run with two men on base in his last trip to the plate Don Lindsey Presby third baseman connected for four bases in the first inning with Bob Zahn on the sacks

MacFayden first went up with the Red Sox in 1926 In 1931 he won 16 games and lost 12 with that struggling club and so impressed the Yankee management that they gave Henry Johnson Ivy Andrews and a considerable sum for him When he left Boston he left his pitching effectiveness behind [illegible] on and off career with the Yanks finally went with the Cincinnati Reds and had lost two and won but a single game when he joined the Braves June 13

Since then he has won three and lost two and yesterday he turned in a sterling victory over the second place Pittsburgh Pirates holding them to eight scattered hits and two runs while his mates ran up a total of seven tallies

The New York Giants and the Chicago Cubs divided a double header with the Giants winning the first 3 2 in 10 innings and dropping the second 10 5 after Charlie Grimm of the Cubs had exhausted his managerial strategy using 18 men

Paul Dean came back to break his three game losing streak pitching the St Louis Cards to a 6-4 victory over the Brooklyn Dodgers and Sylvester Johnson limited the Cincinnati Reds to eight hits to give the Phillies a 10 1 victory in the other National League game

In the American League the Cleveland Indians staged a two run rally in the ninth to defeat the Yankees 5 4 and reduce the league leaders margin to three games The Yankees got to Mel Harder for 12 hits while Johnny Allen was yielding only six but for the most part Harder kept the blows well spaced Malone walked in the winning run after Allen had filled the bases

The Washington Senators took to the offerings of Schoolboy Rowe like a duck to water and hammered the big righthander for 11 hits to defeat Detroit 7 4

## STEPHENSON, HAUSER GIVE 2 A. A. TEAMS VICTORIES IN RACE

### Milwaukee Scores Five Runs in Ninth To Drop Red Birds 6 5

By The Associated Press

CHICAGO June 26 Such old timers as Riggs Stephenson of Indianapolis and Joe Hauser of the league leading Minneapolis Millers are managing to hold their own against the American Association's younger sluggers

Hauser holder of the Association record of 69 home runs for one season who has overcome a series of misfortunes in the way of severe knee fractures to hang on as the Millers first baseman slugged out two home runs yesterday to account for a 10 to 9 victory over Louisville

Stephenson member of the Chicago Cubs "Murderers Row" in 1929 and a star until he was released at the end of last season cracked his first and second homers of the season to give Indianapolis a 15 to 6 decision over St Paul Stephenson's blows drove in five runs

Milwaukee scored five runs in the ninth inning of a night game to beat Columbus 6 to 5 The Brewers were able to do little with Cooper until the final inning when they drove him out and continued at the expense of Bud Tinning Four singles a double and a walk went into the rally

Toledo and Kansas City battled through 11 innings without being able to reach a decision The score was 7 all when the game was called to permit the Mud Hens to catch a train

**CORRECTION**

Due to incorrect designating of team's lineup the Forest Lawn team of the Intermediate League was reported in The Star yesterday as winning its game from the Wesley M E team 5 to 2 The report should have read Wesley M E 5 Forest Lawn 2 Wesley is in first place in the league standing instead of Forest Lawn

# WARRANT FOR OHIO CLERGYMAN ISSUED

South Charleston Minister Faces Charges of Driving While Drunk.

By The Associated Press

BROOKLINE, Mass., June 26—A default warrant was Judge Philip S. Parker's answer to Rev. Ralph J. Westlake's request that "those pesky charges" be removed.

Rev. Westlake, 45, of South Charleston, O., failed to appear in district court here yesterday to answer two second charges of drunkenness and drunken driving placed against him within 24 hours.

Judge Parker said he received a telegram from the clergyman, dated Niagara Falls, N. Y., asking him to "please remove those pesky charges. Pay the last out of the $1,600 and release to me the balance."

The justice immediately issued a default warrant.

The money referred to in the telegram was in an Ohio bank. Rev. Westlake gave the court an order on the bank as security after his second arrest.

The clergyman was first arrested last Friday. He pleaded for leniency in court last Saturday and Judge Parker suspended prosecution on the drunkenness charge and fined him $25 on a charge of drunken driving. He paid the $25.

Saturday afternoon, Patrolman Herbert Lynn arrested Rev. Westlake on similar charges and next morning Rev. Westlake posted the $1,600 order and was released. Police held his new automobile.

Under Massachusetts law, a second conviction for drunken driving is punishable by a jail sentence.

# OHIOAN HELD FOR SHOOTING OF YOUTH

By The Associated Press

HAMILTON, O., June 26—James Ballard, 22, today faced grand jury investigation of manslaughter charges under which he has been held since last week, as a result of the fatal shooting of Robert Stabler, 17.

Ballard, a steel mill employe, told police he shot Stabler after he found him prowling around his home.

# ROPE SAVES MAN IN DORMITORY PLUNGE

By The Associated Press

CINCINNATI, June 26 — Harry Boyd Jr., of New Burlington, O., was in a hospital here today, apparently recovering from injuries received when he fell from the fourth floor of Miami university's new dormitory at Oxford, O., only to be saved from serious hurts by a rope which broke his fall. His right leg was broken, physicians reported.

# NEW GAME SETUP FOR OHIO STUDIED

Special to The Star

KENTON, June 26—Henry J. Pfeiffer of Kenton, member of the state conservation council, today is conferring with fellow council members in Columbus relative to a new game management program for Ohio and Thursday will accompany Conservation Commissioner Lawrence Wooddell to Cincinnati for a conference with the Kentucky conservation commissioner. At that time the Ohio officials will attempt to reach an agreement with the state of Kentucky permitting Ohioans to fish the Ohio river. At present Kentucky controls fishing in the river from West Virginia to the Mississippi river, Pfeiffer said.

# *Skill in Mechanics Leads Lindbergh To Notable Laboratory Achievement*

By HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORK—The same quality of unerring workmanship which carried Col. Charles A. Lindbergh across the Atlantic straight to Paris has now taken him to the first pages of scientific achievement.

Perfection in simplicity of mechanical design is the keynote of success in instruments he has been devising for the Rockefeller Institute here.

The latest of these, a mechanical heart and lungs, its details still a secret, have enabled Dr. Alexis Carrel, Nobel prize winner, to reach a goal sought for more than a century in medicine.

**Contribution Great.**

This is a mechanical pump so perfect that no infection can get into it. With its aid, pumping artificial blood and air, Dr. Carrel keeps alive indefinitely whole vital organs removed from the body by surgery.

There is no overestimate of the importance of the flying colonel's contribution. Some of the greatest scientific achievements rest on perfection of mechanical apparatus—devised as a rule by scientists themselves.

Col. Lindbergh's peculiar fitness for this branch of scientific work is shown in one of the earliest instruments he made for the Rockefeller Institute.

He adapted the principle and shape of a spinning top to solve a troublesome problem of scientific "washing." The objects to be washed were "corpuscles in suspension," living cells floating in a liquid at various depths. The problem was to change the liquid without touching or disturbing them.

Col. Lindbergh built a hollow top and filled it with the corpuscle suspension. When it whirled at the right speed the washing fluid would be sucked in at the pointed bottom.

**Secrecy Maintained.**

The old liquid would be forced out at the rapidly rotating upper edges, where the top was widest.

Meanwhile the centrifugal forces balancing with the pull of gravity would keep the corpuscles floating right in the middle of the top's contents. They would not move with the current caused by replacing the liquid.

This work Col. Lindbergh published in 1932. It was the public's first intimation that he had entered scientific work at the Rockefeller Institute. But neither he nor the institute would tell what the colonel was doing.

Now the publication of the first report on results of the mechanical heart reveals that the colonel was at his scientific work at least as long ago as 1931. It was then that he made the first of a series of the mechanical hearts.

This means that his progress has been in the slow, but accurate scientific fashion. It took him at least four years to attain the perfect mechanical heart now in use.

**Doesn't Discuss Work.**

His description of the first heart in 1931 was issued without his name. Winning his scientific spurs has taken apparently as long, careful work as the flying training preceding the New York to Paris flight.

He drops in at the Institute whenever he wishes. His hours of work there are apparently irregular. Reports circulate occasionally about the colonel being seen at the institute's lunchroom, where scientists eat and chat.

Never apparently does he speak of his scientific work outside a small circle of scientists.

When his first signed scientific article appeared in 1931 in "Science" there may have been someone on the publication who knew that "C. A. Lindbergh," the *sole signature* to the article, was the famous flier.

But one of the most active editors say that neither he nor the staff knew the author was Col. Lindbergh.

Col. Charles A. Lindbergh's skill in mechanics, the same skill that helped make him the world's foremost flying genius, for several years has been devoted to the laboratory. The most recent result is development of mechanical lungs and heart with which Dr. Alexis Carrel, Nobel prize winner, is able to keep alive indefinitely vital organs removed from the body.

# COUPLE MARRIED BY IBERIA PASTOR

Special to The Star

IBERIA, June 26—Miss Louise Rinehart and Robert Maidens of Iberia were united in marriage Friday afternoon at the Methodist parsonage by Rev. J. J. Adams.

Miss Marjorie Rinehart, sister of the bride, and Linerd Roesch were the attendants.

The bride was attired in a maize silk crepe ensemble with white accessories.

# Family Reunions

As in past years The Star is anxious to publish accounts of family reunions in Marion and nearby counties. Written accounts of such gatherings should be mailed or brought to The Star office immediately after they are held.

It will be impossible to publish long accounts of reunions due to the large number held each year in this territory. Reunion reports *should include the name of the family, time and place of the reunion, list of officers elected, and the next meeting place.*

* * *

**POPPENBAUGH**

CRESTLINE—The annual reunion of the Poppenbaugh families was held Sunday at Kelly park, with 125 present for dinner, a number coming later in the afternoon. The following officers were elected: president, Thomas Smith of Tiro; vice president, Vance Hoover of Leesville; secretary, Miss Esther Davis of Bucyrus; treasurer, Zerl Hoop of Crestline. It was decided to hold the next reunion at the same place and same time in 1936.

**CARMEAN**

CRESTLINE—The 78th birthday anniversary of James Carmean which occurred June 20, was made the occasion for a family reunion Sunday at Kelly park. Saturday night Mr. Carmean suffered a heart attack and was unable to be present for the reunion but members of the group visited him at his home and presented him with a number of appropriate gifts as remembrances of the occasion.

Present for the day were: Mr. and Mrs. A. E. Carmean and family and Gene Norman of Bellefontaine; Mr. and Mrs. H. R. Zeigler, son Cecil, Mr. and Mrs. Harold Ault, Nelson Carmean, J. F. Carmean and E. O. Carmean of Kenton; Mrs. William Seeley and family and Waldo Zeigler of Belle Center, Mr. and Mrs. E. S. Walters of Wellington; George Seeley, Mrs. J. C. Metzler, Mr. and Mrs. Samuel Underwood and family of Dunkirk; Sue Ann Kramer of Galion, Mr. and Mrs. C. C. Corbin and sons, and F. W. Kodger of Crestline.

**Bears Keeping Quiet**

The continued disinclination of bears to sell stocks except at higher levels and the timid attitude of shorts emphasized the importance the market attached to increasing evidence that the business picture contains many bright spots. While railroad carloadings this week are expected to take a dip because of the cessation of the emergency in moving coal, operating incomes of most of the carriers thus far reported for May indicate continued progress in paring expenses to income.

Followers of utility shares were again subjected to one of the frequently recurring worrying spells that has kept them on edge for months as reports came of a renewed drive on the part of reform sponsors for reinstatement of the death sentence clause in the house holding company bill. Reports of the debate in the house on this measure were followed eagerly in board rooms.

# STORMS MOVE GRAIN QUOTATIONS HIGHER

### Heavy Rains, Black Dust Reports Send Wheat Prices Upward.

By The Associated Press

CHICAGO, June 26—Grain prices averaged higher early today. Showers in domestic wheat harvest regions southwest, together with heavy rains over Illinois and Iowa, had a bullish effect and so too did black rust reports. Opening ¼ off to ⅛ up, Sept. 79¾@80, wheat soon scored all around gains. Corn started unchanged to ⅛ higher, Sept. 75½@¾, and then made a general advance.

# CARDINGTON SCOUTS GIVE PARK PROGRAM

### Rev. F. W. Hass Installed as Scout-Master in Public Ceremony.

Rev. F. W. Hass was formally installed as scoutmaster of Troop 30, Harding Area Council, Cardington, at a public meeting in the Cardington park Tuesday night. The troop was presented its annual charter and the investiture ceremony was given for two new scouts.

Dr. Hass, pastor of the Cardington Methodist Episcopal church, succeeds J. L. Patterson, principal of the high school, as scoutmaster. Mr. Patterson will continue his scouting activities as chairman of the troop board of review.

The troop charter was presented J. J. Kientz, chairman of the troop committee. Other members of the committee are C. M. Burt, Frank England, E. M. Willits, Dr. J. E. Henry, Dr. T. E. Nybladh, Virgil W. Peck, J. H. Halderman, Rev. Henry Young and Robert Smiley, assistant scoutmaster.

Following the investiture ceremony Charles Burt and Donald Bachelder were received into the troop as new scouts and their badges were presented them by Dr. Hass. Mr. Kientz and Mr. Burt gave short talks congratulating the troop and Arthur S. Brooks, scout executive, spoke on the national jamboree. Scout Eugene Smiley is an applicant for the jamboree.

The Cardington troop will spend a week at Camp Owens with the other Morrow county troops starting July 8.

## AGED MAN DIES AT LITTLE YORK HOME

Special to The Star

NEVADA, O., June 26—William Kayler, 72, of near Little York, died at his home at 3:30 a. m. today of infirmities of age. He had been in failing health for a number of years.

Born Aug. 1, 1862, near Mansfield, he was the son of Abraham Kayler and Jane Emptage Kayler. His wife, Etta Smith Kayler, is dead. He was a member of the Rock Run Church of God. A school teacher for 35 years, he more recently had been a farmer at his home near Little York.

Two daughters, Augusta, who lived at home, and Mrs. Ira Failer of south of Nevada, a sister, Mrs. John Marvin of California, and two brothers, F. W. Kayler of Mansfield and R. S. Kayler of Alliance, survive. Funeral services will be at the home at 2 p. m. Friday with burial in Nevada cemetery.

## HICKS, DIDRIKSON FACE GOLF TESTS

By The Associated Press

CHICAGO, June 26—Helen Hicks and Babe Didrikson faced serious opposition today in their campaign to make a business woman affair of the Western Women's Open tournament final.

The smiling easterner and the lanky star from Texas appeared to be the class of the field as they won their opening match play tests yesterday in the only tournament for which they are eligible. However, Miss Hicks needed to defeat Lucile Robinson of Des Moines, a former western champion, in the quarter-finals today, while the Babe was faced with the job of eliminating Mrs. L. H. Selz of Chicago to remain in the running.

Miss Hicks won her opening match by a 4 to 3 margin over Mrs. Harold Foreman of Chicago. Miss Didrikson played some wobbly golf, but more than made up for it by flashes of brilliance in sweeping aside Mrs. Robert L. Bullard of Springfield, Ill., 6 and 5.

## TRANSIENT CAMPS MAKE LESS HOBOES

By International News Service

COLUMBUS, O.—Stilled is the "call of the open road" that has made "hoboes" of thousands of Ohio youths.

The wanderers who "ride the rods" and "thumb their way" back and forth across the nation's highways are disappearing.

Transient camps, operated as part of the federal relief program, are rehabilitating thousands of youths and men, Walter A. Hixenbaugh, head of the Ohio transient branch of the federal relief program, declares.

At eight of three camps, located throughout Ohio, 1,600 men and boys are learning trades and arts. Originally established a year ago as camps for transients, these sites are now "small cities." The transients that drifted into these settlements are no longer transients, Hixenbaugh revealed.

They have made the camps their permanent homes, permanent as long as the federal government continues the program.

## FILM STAR OPPOSED TO CRIMSON NAILS

By International News Service

HOLLYWOOD — Jee Morrison, film star who is one of Hollywood's most eligible bachelors, has struck a blow at the rising tide of crimson fingernails and artificial eyelashes.

Morrison announced that women who so adorn themselves had been stricken from his "date list."

Cecil B. DeMille, the director, also is opposed to the fad.

He sat quietly at dinner the other night with his daughter, Katherine DeMille, film actress, his eyes fascinated by her dark red fingernails, and then said solemnly:

"Katherine, hasn't your mother ever instructed you that after adding the cook dress chickens, you should wash your hands?"

## AUSTIN, WOOD WIN IN TENNIS TOURNEY

By The Associated Press

LONDON, June 26—H. W. (Bunny) Austin, British Davis Cup singles player, opened the third day of the Wimbledon tennis championships today with a 6-2, 6-0, 6-3 victory over the Norwegian, J. Hannes, in the second round of men's singles.

Sidney Wood, blond New Yorker and most feared of the American contenders, swept into the third round at the expense of O. E. Godsell of Great Britain, 6-3, 6-3, 6-2.

Wood's superb forehand put away point after point against Godsell but the American hit frequent spells of wildness that made his task much more difficult than it needed to be.
